THERE IS NO LIMIT TO WHAT WE CAN DO

The San Francisco earthquake was a life-changing seismic event for Cori Brett. As she puts it - “the event was an accelerator that forced me to look more closely at my life as an Investment Real Estate Broker and gave me permission to do something different - to do what I call ‘lifestyle work’ - work that makes me feel good, feeds my soul, and provides an income stream.”

## LIFESTYLE WORK

- ▶ what do you love to do?
- ▶ can you recall an “accelerator moment?”
- ▶ what steps can you take to see what’s possible?
- ▶ what financial adjustments would be needed?
- ▶ how strong is your desire to change?
- ▶ what pieces are in your kaleidoscope right now?

Cori Brett has teed it up in Marrakech, played through cobras in Penang, and learned that “golf-speak” is a universal language. Cori is a frequent industry spokeswoman. She writes for national publications on golf, the game and the lifestyle. Cori’s golf travel column, “Where in the World is Cori Brett?” appears monthly on the website of the Arizona Women’s Golf Association.
